ABOUT US

LifeTime Tennis is one of Australia's leading tennis academies. Our coaches are regarded as the best in the country and our programs have changed the way that tennis is played.

We provide players with an individualised program of intense training, stroke development, tactical & psychological awareness.

Developed for players who are **serious** about their tennis, especially those seeking state, national, international rankings, ITF & US College placements.

Teaching self-evaluation skills to enable players to grow from every tennis experience - not just the ones provided by the coach. Based on the training techniques used by John Millman & Pat Rafter.

Pro Tennis Development is the first stage and our entry point for players aged 8 - 11 years of age.

Pro Tennis is the second stage and perfect for players aged between 12 - 17 years of age.

International Program is the final stage, for players 17+ who want to play at an international level.
